INTRODUCTION

The Capital Estimates provide a summary, by department and activity, of infrastructure projects the Government is planning to invest in or contribute towards during the 2012-2013 fiscal year. The infrastructure investment authority is being requested only for the 2012-2013 year, therefore only those projects that require funding in 2012-2013 are included in the Activity Summaries.

The Legislative Assembly is being requested to appropriate funds at the departmental level, as detailed in the Capital Estimates, for infrastructure investment expenditures for the fiscal year ending March 31, 2013.

The approval of the Capital Estimates during the Fall Session of the Legislative Assembly allows for better planning for both the GNWT and contractors. This will allow the tendering process to begin sooner, contractors can fit projects into their schedule, encouraging more bidders and therefore obtaining the greatest level of interest and competition possible before contractors have already filled their order books for the summer construction season.

This summary reflects the 2012-2013 planned expenditures of the NWT Housing Corporation for the Infrastructure Acquisition Plan. The financing for these expenditures includes funding from the Canada Mortgage and Housing Corporation and various other sources. This information is intended for review purposes only with contribution funding provided by the Government of the Northwest Territories, through the Corporation's sponsoring department, the Department of Finance.

FINANCE AND INFRASTRUCTURE SERVICES

Activity Description

Finance and Infrastructure Services coordinates financial services, capital planning, land requirements, and infrastructure to support the delivery of the NWTHC's Infrastructure Acquisition Plan, through its Finance & Administration and Infrastructure Services Divisions.

The Finance & Administration Division is responsible for the overall financial affairs of the NWTHC and its Boards and Agencies. This includes financial planning, the provision of accounting services, reporting and monitoring, treasury services, mortgage administration, and providing advice to senior management and stakeholders. This Division is also responsible for the NWTHC's Information Systems and Information Management and is responsible for materials management and the safeguarding of corporate assets.

The Finance & Administration Division is also responsible for managing the NWTHC's own source revenues and funding from CMHC under the Social Housing Agreement. The Division is responsible for the Corporate Loan Guarantee Program, which supports the construction of new residential housing in the NWT by independent developers. The Division also provides ongoing subsidy assistance and operational support to various non-profit housing organizations outside of the public housing program.

The Infrastructure Services Division is responsible for the overall development, design and procurement, planning and delivery of capital infrastructure projects in support of the NWTHC's rental and homeownership programs. This Division is also responsible for the planning, procurement, and administration of suitable land for the delivery of housing programs and services and the security of NWTHC assets and mortgage interests. Infrastructure Services is also responsible for the maintenance management of the NWTHC's public housing portfolio in order to ensure its long term sustainability. The Division provides technical assistance in the development of new housing programs and supports the District Offices in their delivery of the Contributing Assistance for Repairs and Enhancements (CARE) program where it works with private homeowners to determine their repair needs and develop scopes of work. Finally, Infrastructure Services is the NWTHC's lead on issues related to energy efficiency and new housing technologies.

REGIONAL OPERATIONS**Activity Description**

Regional Offices are responsible for the coordination and delivery of many of the Department's programs and services to community governments.

Regional staff provide advice and support to community governments on a range of issues. They advise community governments on governance, budgeting, debt recovery, financial reporting and other activities to support the use of sound management and financial practices. They also support communities in the development of community capital investment planning, project management and the operation and maintenance of community infrastructure and equipment.

Assistant Fire Marshals participate in training activities, local inspections and investigations.

Regional lands staff assist community governments with community land administration and planning activities and administer leases for Commissioner's lands.

Asset Location - Community where the asset is located. Various if not located in a specific community, such as, a highway project.

Asset Classification - Who benefits from this asset?

Community - A community specific asset, such as, a school or water treatment plant.

Regional - Limited primarily to a specific region, such as a highway project.

Territorial - A territorial project , such as, park infrastructure, Stanton Hospital or Information Technology projects.

COMMUNITY OPERATIONS

Activity Description

Community Operations coordinates many of the functions that support community governments. Program Management coordinates the work of the division, administers consumer, lottery, business and real estate agent licensing and responds to consumer complaints.

The Community Financial Services section coordinates financial advisory services to community governments to help promote their financial viability, good financial management and proper financial reporting practices.

The Community Governance section coordinates the Department's involvement in the implementation of Aboriginal land claims and self-government processes; provides advice on community governance issues at the request of community governments; and processes bylaws requiring Ministerial or Executive Council approval. The Chief Municipal Electoral Officer function provides advice and support related to community government elections.

The Financial Policy and Infrastructure Leveraging section analyzes fiscal policy related to supporting community governments and pursues options for accessing alternate sources of revenue for community governments. This section is also responsible for the coordination and implementation of various federal infrastructure funding programs.

The Capital Planning and Infrastructure section coordinates capital planning and infrastructure acquisition and provides technical advice and support regarding capital programs and infrastructure. This section is also responsible for completing remaining items on the MACA Capital Plan.

ASSET MANAGEMENT

Activity Description

The Asset Management activity is responsible, on behalf of government departments, for the planning, design, construction, operation and maintenance of buildings and works throughout the NWT. Regional offices manage the delivery of maintenance and project management services, ensuring that client needs are met and facility life cycle costs are minimized. Headquarters supports the regions by providing facility planning, technical expertise for program and design standards, facility evaluations, troubleshooting, facility commissioning, granular materials planning and coordination, procurement and project management support, and technical support for safe drinking water initiatives.

Asset Management also coordinates the GNWT's Capital Planning process as well as the planning, acquisition and management of general office space for the GNWT, including leases, and the disposal of the GNWT's surplus real property assets.

PWS assumes responsibility for energy management within the government facilities it maintains. For existing buildings, this includes energy consumption analysis and benchmarking, detailed energy audits, and the inspection of electrical and mechanical systems. For new buildings, the EcoEnergy Validation Program Protocol is used, which includes computer modeling of energy use. As part of the modeling, an energy workshop with designers, clients, and operators allows various equipment options to be discussed and simultaneously modeled for energy consumption and savings.

The role of Contracting and Procurement Services is to provide procurement services to the department along with monitoring and advice with respect to GNWT and PWS policies, procedures and standards related to contracting. This includes contracts for construction, the acquisition of goods and services, architectural/engineering consulting contracts, and the acquisition of real property.

The building infrastructure Risk Management and Safety Program addresses the Deferred Maintenance Initiative. This activity is focused on assessing the condition of key GNWT building infrastructure and identifying and undertaking remedial work to ensure that buildings continue to be safe for occupancy, and to ensure that critical deferred maintenance items are addressed to maximize the useful life of these assets.

Inspection Services is responsible for the administration and regulation of electrical, elevator, boiler, pressure vessel and gas safety. These tasks protect the public by ensuring that all installations are constructed, all equipment is approved, and all workers are certified in accordance with the various codes and NWT Acts.

TECHNOLOGY SERVICE CENTRE**Activity Description**

The Technology Service Centre (TSC) provides Information Technology (IT) services and support to GNWT departments and the Deh Cho and Sahtu Health Authorities. The TSC is responsible for the network that interconnects over 120 departmental local area networks in government offices, schools and health care facilities in all 33 communities. The TSC maintains the government's e-mail, servers and data storage infrastructure as well as provides desktop/laptop support and application hosting.

The TSC manages the government's primary GNWT Data Centre in Yellowknife as well as the Data Centre located in the Stuart M. Hodgson Building which provides secondary/backup site functions. The TSC is also responsible for two smaller data centres in Fort Smith and Inuvik.

All calls for TSC assistance are handled through the TSC's Service Desk. The TSC continues to focus on becoming increasingly client-focused. It is also committed to enhancing the TSC services and support through ongoing quality and process improvement.

PETROLEUM PRODUCTS DIVISION**Activity Description**

The Petroleum Products Division (PPD) manages the purchase, transport, and storage of petroleum products in NWT communities not served by the private sector. The products are sold to residents of sixteen communities through local contractors who are paid a commission. PPD also provides fuel delivery and maintenance services to NWT Power Corporation tank farm facilities in twenty communities.

PPD financial and administrative headquarters, with responsibilities for credit, invoicing, collections and financial planning, are located in Fort Simpson. The Fuel Services group oversees operations in the communities and manages local delivery contractors, determines re-supply quantities, provides quality control, capital standards and planning, and environmental management.

The PWS Asset Maintenance group within PPD manages the operations, maintenance and disposal of GNWT goods and buildings throughout the Nahendeh Region, and when requested supports community governments in the management of their infrastructure responsibilities.

HEALTH SERVICES PROGRAMS

Activity Description

Health services to eligible northern residents in areas such as inpatient and outpatient services, public health and chronic care are provided through the Department and Health and Social Services Authorities/Agency. Pursuant to the *Hospital Insurance and Health and Social Services Administration Act*, Health and Social Services Authorities/Agency are established to operate, manage and control facilities, programs and services.

Hospital Services

- funding to Authorities/Agency to provide primary, secondary and emergency care in NWT hospitals
- funding for insured hospital services to NWT residents outside the NWT

NWT Health Centres

- funding to Authorities/Agency to provide residents with primary care or “first contact” care through a system of health centres located throughout the NWT

Physician Services

- funding to Authorities/Agency to provide insured physician services inside the NWT
- funding for insured physician services to NWT residents outside the NWT

Medical Equipment under \$50,000

- funding for medical equipment under \$50,000

COMMUNITY HEALTH PROGRAMS

Activity Description

Community Health Programs are delivered outside health facilities and include institutional care, assisted living, counselling, and intervention and health promotion.

This activity, under the coordination of the Child and Family Services Division, includes direct program delivery funding for community based health and social services programs and services, as well as program planning and development, including;

- community social service workers in the areas of prevention, assessment, early intervention, counselling and treatment services related to children, youth and families;
- prevention, assessment, intervention, counselling and treatment programs and services to children and families, in compliance with the *Child and Family Services Act and Adoption Act*;
- injury prevention strategies, health promotion, prevention, assessment, treatment and rehabilitation services for addictions, mental health, disabilities, chronic illnesses, and seniors;
- long term care facilities, including group homes and residential care, inside and outside the NWT;
- programs to enable individuals with special living requirements to stay in their homes as long as possible and services designed to assist living in the home;
- in accordance with legislation and policy, the Office of the Public Guardian responds to persons requiring assisted decision-making;
- programs aimed at assisting with emotional and social problems such as suicide, homelessness, and dealing with residential school issues; and
- programs related to emergency shelters and counselling.

SERVICES TO GOVERNMENT**Activity Description**

Services to Government includes the corporate management activities of the Directorate, Policy and Planning, and Finance. It also includes services provided to other GNWT departments, boards and agencies. Legal Division provides advice and representation to all GNWT departments and specified public agencies. Lawyers conduct litigation, provide legal opinions, and advise on a wide range of matters. One position is dedicated to prosecution of Territorial offences. GNWT bills and regulations are prepared by or under the direction of legislative drafters in the Legislation Division, and legal translators prepare French versions of these documents. The Department is also responsible for providing advice and information on the *Access to Information and Protection of Privacy Act*.

COMMUNITY JUSTICE AND CORRECTIONS

Activity Description

The **Community Justice Division** provides support to communities to develop and implement sustainable local justice programming in the areas of restorative justice, victim services, community policing and crime prevention.

The **Corrections Division** provides safe custody and supervision of adult and youth offenders. This is achieved through the operation of correctional facilities, and the supervision of offenders sentenced to community based orders such as conditional sentences and probation orders. The Division delivers culturally relevant programs to support offender rehabilitation and reintegration, including wilderness camps and elder support.

ADVANCED EDUCATION

Activity Description

The Advanced Education Division provides a range of programs and services related to career development, apprenticeship, employment preparation, training and development, literacy, adult and postsecondary education, and labour services.

Adult and Postsecondary Education supports the planning, research, development and evaluation of adult and postsecondary programs and services, including Aurora College, the NWT Literacy Strategy and Adult Literacy and Basic Education.

Apprenticeship and Occupations works closely with industry, Aurora College, the Interprovincial Red Seal program and other training institutions to provide training and certification in designated trades and occupations.

Career and Employment Development works in partnership to coordinate labour market programming to expand employment opportunities in the North and increase participation in the workforce. It provides support to industry to ensure the scope and delivery of programs offered meet regional needs. ECE Service Centres offer career counselling, needs assessment, education planning, workshops, resource libraries, career and labour market information, and career fairs. The Division also provides immigration supports through the Canada-NWT Agreement on Territorial Nominees.

Employment Standards administers the *Employment Standards Act* and investigates complaints from employees and employers regarding non-compliance with this legislation. Independent adjudicators make decisions on appeals filed under the Act.

Management and Program Support negotiates and monitors training and employment provisions in socio-economic agreements; ensures management and administrative support in headquarter and regional offices. In addition to delivering apprenticeship, career and employment programs, regional offices are responsible for delivering income security and early childhood programs budgeted under separate activities.

Territorial - A territorial project , such as, park infrastructure, Stanton Hospital or Information Technology projects.

EDUCATION AND CULTURE

Activity Description

Two divisions are responsible for the education system from early childhood to high school completion. The Early Childhood and School Services Division provides direction, standards, supports, as well as program and curriculum development for children from early childhood through to grade 12 completion. The Education Operations and Development Division supports, monitors and reviews operations and service delivery by education authorities responsible for K-12 education and runs Public Library Services.

The **Early Childhood Development Program** – licenses, monitors and funds early childhood programs.

Instructional and Support Services – ensures teaching standards are maintained and conducts curriculum review, revision, and replacement, as required. It also supports school staff to implement department directives.

Aboriginal Language and Culture Based Education – ensures through guidelines and contributions to education authorities that education honours all forms of First Nation, Métis and Inuit traditional knowledge, ways of knowing, and worldview; and to promote the cultures and languages of the First People of the NWT.

Inclusive Schooling – ensures through guidelines and contributions that all NWT students are entitled to access an education program in a regular instructional setting in their home community.

Minority Language Education and Instruction – ensures that French First Language, French Immersion and Core French programs are available and delivered in the NWT.

Education Operations and Development ensures teacher and principal certification, provides education leadership development and supports teachers through the Teachers' Qualification Service and by assisting with teacher recruitment and retention. The Division manages student records, systemic student assessments, and reports on indicators of student achievement and K-12 education system functioning.

The **Northwest Territories Teachers' Association (NWTTA) Professional Development Fund** – is provided by the Department to support the professional development of teachers.

School Contributions – provides contributions to education authorities for the operation of NWT schools.

Public Library Services (PLS) provides library services to meet the education, information and recreation needs of residents across the NWT. A central library collection is maintained, with materials rotated to libraries across the NWT and mailed to residents in communities without libraries.

The Culture and Heritage Division has responsibility to enhance the arts, cultures and heritage of the NWT in partnership with community, regional, and national organizations.

Culture and Heritage provides support to community museums, cultural, heritage and arts organizations, projects, and individuals; manages archaeological site protection, conducts archaeological research, administers archaeological permits, participates in land use regulatory processes, administers the Geographical Names and Territorial Historic Sites Program; and administers the NWT Archives and Museum Operations at the Prince of Wales Northern Heritage Centre (PWNHC).

Two offices are responsible for supports to official languages in the NWT. Official Aboriginal Languages supports the acquisition, maintenance and revitalization of Official Aboriginal languages in the NWT. Francophone Affairs oversees the delivery of programs and services in French by GNWT departments, boards and agencies.

Official Languages – supports Aboriginal language broadcasting in the NWT and funds Aboriginal Language Communities; manages Services TNO and ensures the coordination of services and communications in French across the GNWT.

AIRPORTS

Activity Description

The purpose of the Airports Program is to provide airport facilities and services and to encourage and support the provision of regular, safe, cost-effective and reliable air services. The Department is responsible for the maintenance, operation, and rehabilitation and upgrading of airports.

The Department operates 27 airports in the Northwest Territories, of which one is a Gateway hub, (Yellowknife), two are Regional hubs, (Norman Wells and Inuvik), and the remaining 24 are community airports. Connected with the Airports Program, the Department maintains a close watch over air transportation legislation, regulation and policy activities of other governments, overall trends in air transportation safety, costs, infrastructure technology development/change and opportunities for partnership to finance the improvement of airport infrastructure.

There are four areas of program support:

- Management
- Program Development
- Operations
- Facilities

MARINE

Activity Description

The purpose of the Marine Program is to provide safe and reliable ferry crossing services on the highway system. The Department is responsible for the planning, safety, operation and maintenance of the vessels and support facilities at the ferry crossings. The Department also provides comments and advice on other marine transportation initiatives.

The Department provides ferry services at five river crossings where the territorial all-weather highways traverse waterways. Connected with the Ferries Program, the Department maintains a close watch over federal marine legislation, regulation and policy activities.

There are three areas of program support:

- Management
- Maintenance and Refits
- Operations

HIGHWAYS

Activity Description

The purpose of the Highways Program is to provide highway facilities and to encourage and support the provision of safe, reliable and cost-effective inter-community travel and road transportation services. The Department is responsible for operating, maintaining, rehabilitating and upgrading all highway infrastructures.

The Department maintains 2,200 kilometers of all-weather highways and 1,425 kilometers of seasonal winter roads. The Highway system also includes over 70 bridges and well over 3,000 culvert structures. Connected with the Highways Program, the Department monitors current trends in highway construction, engineering, safety, design and technology. The Department actively seeks new partnership opportunities with other governments and industry to finance the development of new highway infrastructure and to finance enhanced operations.

There are four key areas of program support:

- Management
- Winter Roads
- Infrastructure
- Operations

ROAD LICENSING AND SAFETY

Activity Description

The purpose of the Road Licensing & Safety Program is to ensure the protection of public safety and the environment in all areas related to the use of motor vehicle and commercial vehicles.

The Department is responsible for the testing, registration and inspection of all drivers and vehicles that use the Territorial transportation network. The Department establishes and enforces the Acts, Regulations and Safety Codes that apply to drivers and motor vehicles including commercial motor carriers throughout the Territory.

Connected with the Road Licensing & Safety Program, the Department ensures the safe operation of all commercial vehicles through transportation legislation, inspections, regulations and policy activities. The Program ensures compliance with national policies and initiatives. The Program researches trends in highway transportation safety, technology development, and future opportunities for partnerships to ensure regulatory harmonization, implementation of new ideas and ensuring all drivers and vehicles are safe to share the roadways.

There are three areas of program support:

- Management
- Driver & Vehicle Licensing Program
- Carrier & Inspections Program

CORPORATE MANAGEMENT

Activity Description

The Corporate Management activity provides overall management, strategic planning, communication, and leadership to the Department's divisions and regions. Divisions and Units within this activity enable the Department to respond effectively to the environmental and resource management priorities of NWT residents.

The Corporate Management activity is carried out through Directorate, the Policy and Strategic Planning Division, Corporate Shared Services (Finance and Administration and Informatics Divisions), and the Field Support Unit.

Directorate provides overall leadership, management, and strategic planning for the Department.

Policy and Strategic Planning provides policy, legislative, strategic planning, coordination, and communications and media relations support to the Department to make informed decisions on environmental and resource management issues.

The Field Support Unit provides regional and divisional support on activities related to traditional knowledge, Aboriginal relations, licensing, compliance, public education, and employee training.

Finance and Administration provides budgetary, accounting, and financial management services to the Department. These services include providing advice to senior management on financial management, financial control, information systems, contracts, contributions, capital planning, and the acquisition and maintenance of equipment.

Informatics provides broad Information Management Services including Records and Library Services, Geomatics and Geographic Information Systems and analysis, Information Systems development, implementation and operations, and strategic advice and guidance on the use of information and technology in support of programs and services.

WILDLIFE

Activity Description

Wildlife initiatives assess and monitor wildlife, habitat, species at risk, wildlife health, and biodiversity, as well as coordinate initiatives to address impacts on wildlife from human activity. Functions include developing strategies, management plans and programs to support the conservation of wildlife resources, preparing public information materials on wildlife conservation, biodiversity and reducing wildlife/human conflicts, undertaking compliance activities, and administering the sport fishery.

Wildlife programs and services are delivered by regional and headquarters wildlife staff. Regional staff work closely with renewable resource management boards to co-ordinate wildlife research and monitoring programs. Regional staff undertake wildlife surveys and involve communities in these activities. Regional staff also participate in the development of management plans. Headquarters wildlife staff help co-ordinate and provide expertise to assist regional staff in wildlife research and monitoring programs. Headquarters wildlife staff liaise with national and international wildlife activities and co-ordinate NWT-wide programs, such as biodiversity monitoring, major legislative reviews (e.g. *Wildlife Act*), species at risk programs, wildlife health studies, wildlife best management practices, wildlife cumulative effects studies, wildlife databases, and wildlife study publications. All wildlife and sport fishing compliance programs are delivered by regional renewable resource officers.

FOREST MANAGEMENT

Activity Description

Forest Management initiatives provide for the stewardship of NWT forests through sustainable management of forest resources and forest fire management. Forest programs and services are delivered by regional and headquarters forest management staff.

Sustainable forest management is ensured through the collection of information on the state of forest resources, forest management planning, monitoring of forest health and changes to forest landscapes, regulation of forest practices and planning, and compliance and reporting.

Forest fire management is achieved through prevention, preparedness and forest fire response. Using the best science, technology and effective use of available fire response resources, forest fire management provides for the protection of people, property and other values at risk from forest fire. Developing an increased capacity of individuals, communities, industry and others to take responsibility for reducing fire hazards and forest fires is also a priority.

ENVIRONMENT

Activity Description

The Environment Division works to maintain a high quality environment for the benefit of current and future generations.

The Environmental Protection section works to prevent and reduce the impact of human activities on the natural environment by providing information, advice and programs in the areas of contaminated sites, hazardous substances, solid and hazardous waste management, waste reduction and recovery, and air quality.

The Climate Change Programs (CCP) section coordinates the GNWT's response to climate change by developing strategies and activities to control and inventory greenhouse gas emissions, identifying climate change impacts, increasing awareness of climate change, and adapting to a changing climate. Working with the Arctic Energy Alliance, the CCP section encourages energy conservation and the use of energy efficient technologies and alternative energy sources.

The Senior Science Advisor provides expertise, leadership, and vision across the GNWT as a champion for excellence in scholarship and research and is responsible for promoting collaborative research priorities and themes relevant to the GNWT and northerners, engaging research partners in science policy development, encouraging investment in research, and promoting major research initiatives.

GLOSSARY

GLOSSARY

Activity	A division of a Program.
Capital Projects	Projects established for the purchase or construction of capital assets. Typically a capital project encompasses a purchase of land or equipment and/or the construction of a building or other facility.
Department	Organizational entity established by Cabinet to deliver programs and services within a specified mandate.
Infrastructure	The permanent facilities and organization structure in place for the purpose of delivering government programs.
Infrastructure Contribution	A contribution made to a third party by the GNWT to purchase, construct, develop or acquire a Tangible Capital Asset, where the ownership of the asset is retained by the third party.
Large Capital Asset	A Tangible Capital Asset with a total project cost of at least \$400,000.
Small Capital Asset	A Tangible Capital Asset with a total project cost of less than \$400,000, but greater than \$50,000.
Tangible Capital Asset	A non-financial asset of physical substance that is purchased, constructed, developed or otherwise acquired and has the following characteristics: • It is held for use in the production or supply of goods, delivery of services or program outputs; • It has a useful life extending beyond one fiscal year and is intended to be used on a continuing basis; and, • It is not intended for resale in the ordinary course of operations. The major categories of tangible capital assets are: - Land (other than land acquired at no cost to the government); - Roads and Bridges; - Ferries; - Airstrips and Aprons; - Buildings; - Water and Sewer Works; - Leasehold Improvements; - Mobile and Heavy Equipment; - Other Major Equipment; and, - Major Medical Equipment.

Capital Planning Process

Capital Planning Process

The capital planning process is based on a government-wide approach.

The capital planning process provides for one Government of the Northwest Territories capital investment target with all Departmental projects competing for available funding. Projects are prioritized on a government wide basis according to specified ranking criteria.

As of April 1, 2007, the Department of Municipal and Community Affairs has implemented the New Deal for NWT Community Governments. As part of this initiative, Community Governments are provided with responsibility for planning, managing and owning their Community Public Infrastructure. Beginning in the 2007-2008 fiscal year, Municipal and Community Affairs has flowed infrastructure funding through a Capital Formula to Community Governments. As Community Governments will have ownership for infrastructure built with these Formula funds, this will be recorded as Infrastructure Contributions and not be part of the Government of the Northwest Territories' Infrastructure Acquisition Planning target. Municipal and Community Affairs has been allocated a \$28 million target to allocate the Formula Funds.

The primary criteria for ranking projects in order of priority are:

1. Protection of People;
2. Protection of Assets;
3. Protection of Environment;
4. Financial Investment; and,
5. Program Needs of Requirement.

Secondary criteria are used to further assess the urgency of projects, within each of the primary criteria. The secondary criteria are as follows:

1. Direct Impact Scale – how many impacted?
2. Severity of Impact – what is the impact?
3. Urgency – how soon is it needed?
4. Mitigation – what else can be done?

The capital planning process can be summarized from the following process chart:

Capital Planning Process

Community Consultations

As seen from the chart the community consultation process is an important element of the capital planning process.

Departments typically conduct community consultations prior to the start of the capital planning process on an annual basis. To better address community needs, an enhanced community consultation process was adopted in 2006 for the 2007-08 capital planning process. This enhanced process, which will be undertaken every two years, includes visits to each NWT community by GNWT representatives to explain the capital planning process. The objectives of these visits are to:

- coordinate consultation between departments and the communities;
- ensure communities understood the information provided (i.e. the 20 year needs assessment and current five-year infrastructure plan) and the processes involved in developing the five-year plan; and,
- ensure communities concerns were heard and responded to.

In the years where the more extensive community consultation process is not planned, departments will continue to consult with their respective stakeholders, as appropriate but with a focus on updating their existing capital needs.

Regardless of the approach undertaken in any year, the community consultation process adheres to the following general objectives:

1. Communities will be consulted annually on their capital needs;
2. If required or requested, explanations on the allocation of resources to capital investment, and the application of priority criteria along with the political and other influences on the process will be provided; and,
3. Direct feedback on the consultations will be provided, including feedback to communities on the inclusion or exclusion of community projects in the capital plan or capital needs assessment, and if requested, a follow-up meeting with the communities to explain the capital plan and disposition of their proposed projects.
